Subject: Don't delay public hearings on net metering (PSC Docket #2005-385-E)

Sep 25, 2013

Jocelyn Boyd  
101 Executive Center Drive, Suite 100  
Columbia, SC 29210

Dear Boyd,

I respectfully disagree with the decision of the Public Service Commission to indefinitely delay the public hearing on net metering (PSC Docket #2005-385-E) that was supposed to have been held this past September 12th, 2013.

Sunshine is one resource South Carolina has in abundance. Why do state regulators make it so difficult for consumers to take advantage of it?

Instead of empty slogans ("it's a great day in South Carolina" -- really? or "beautiful places, smiling faces") how about something that really makes a difference in the quality of life for South Carolinians?

Come on, be bold! Commit the outrageous act of actually serving the public, instead of just saying you do.

After all, the PSC exists as a public body to best advance its own motto: "a fair, open, and efficient regulatory process that promotes cost-effective and reliable utility services." I hope that the Commission reconsiders streamlining its hosting of an open public discussion about net metering, in order to so carry-out its own vital role as a public service entity. Thank you for your consideration of this request to re-set a date to have this public discussion in the near future.

Sincerely,

Ms. Sandra Dollar  
1670 Springdale Dr Ste 9  
Camden, SC 29020-5001
